The Wesleyan Heritage CD has a Library Manager which allows selections to be made by either Author's Name or Selection Title.

The CD was created using Adobe Acrobat, and includes Adobe Reader 4.0 with all of its viewing and searching capabilities. You may also "copy and paste" to your favorite word processor, or print copies of selections for friends or off computer reading.

Viewing may be magnified to extremely large characters for the visually impaired or set to normal magnification for normal use at the click of a mouse.

Searches may be done on a Selection Basis or the Entire Volume may be searched in seconds. Search may be done on words or combinations or words with options such as word-stemming, case sensitivity, proximity, and exact match. "And/or" operators are fully functional during the searches.

In addition to the Titles listed, the six volume Commentary of Adam Clarke, the five volume Commentary of J. A. Beet and the Notes of John Wesley on the Old and New Testaments are included for "Restoring" to your Hard Drive for use with Online Bible. These are also accessible with Adobe Reader.

The CD has a 30 Day - Money Back Guarantee.
